

PRICE LIST FOR LABORATORY TESTS - CATS

Pathogenic agent	Examined material	Used capture method	Price € incl. VAT
Anti A titer for B blood group	EDTA	Serological test anti A titer	21.00
Babesia spp.	EDTA, tick	PCR test (Laboklin) detection in biological material	37.00
Bacillus cereus	skin, wounds, abscesses	Bacteriological test basic bacteriological test selective isolation determination of sensitivity to ATB	7.00 10.00 10.00
Bordetella bronchiseptica	lungs, lung tissue swab, nasal swab	Bacteriological test basic bacteriological test selective isolation determination of sensitivity to ATB	8.00 10.00 10.00
Borrelia burgdorferi	biological material, tick, EDTA	Real Time PCR test detection in biological material	33.00
Calici virus (FCV)	conjunctival swab, nasal swab, genital swab,	Real Time PCR test detection in biological material	24,00
	EDTA	PCR test (Laboklin) detection in blood	37.00
Campylobacter spp. C. jejuni	rectal swab, intestinal swab, feces	Bacteriological test basic bacteriological test	7.00
		selective isolation	12.00
		determination of sensitivity to ATB	5.00
Clostridium perfringens Clostridium difficile	rectal swab, intestinal swab, feces	Bacteriological test basic bacteriological test	7.00
		selective isolation	10.00
		determination of sensitivity to ATB	10.00
Cryptosporidium parvum	feces	Immunochromatographic test detection of Cryptosporidium parvum antigen	14.00
Enterobacteriaceae (Yersinia enterocolitica, Klebsiella pneumoniae, Proteus sp.)	rectal swab, feces, upper respiratory tract swab, lungs, joints	Bacteriological test basic bacteriological test	7.00
		selective isolation	10.00
		determination of sensitivity to ATB	10.00
Escherichia coli including haemolytic strains	rectal swab, intestinal swab, feces, upper respiratory tract swab, lungs, organs	Bacteriological test basic bacteriological test	7.00
		selective isolation	10.00
		determination of sensitivity to ATB	10.00
Feline coronavirus (FIP)	feces, rectal swab, EDTA, fluids, organs	Real Time PCR test detection of coronaviruses in biological material	39.00
	EDTA, serum, plasma	Immunochromatographic test detection of antibodies against coronaviruses	8.00
	EDTA, serum, plasma	Serologic test (ELISA) detection of antibodies against coronaviruses (titer)	20.00
Feline Immunodeficiency Virus (FIV)	EDTA, serum, plasma	Immunochromatographic test detection of antibodies against FIV	8.00
	EDTA	PCR test (Laboklin) quant. detection of FIV in biological material	54.00
Feline Leukemia Virus (FeLV)	EDTA, serum, plasma	Immunochromatographic test detection of FeLV antigen	8.00
	EDTA	PCR test (Laboklin) detection of FeLV in biological material	37.00
Giardia intestinalis	feces	Immunochromatographic test detection of Giardia intestinalis antigen	10.00
Haemobartonella	EDTA, tick	PCR test (Laboklin) detection in biological material	37.00
Haemophilus felis	upper respiratory tract swab	Bacteriological test basic bacteriological test	7.00
		selective isolation	10.00
		determination of sensitivity to ATB	10.00
Herpesvirus (FHV)	conjunctival swab, nasal swab, genital swab, EDTA	Real Time PCR test detection in biological material	24.00
		PCR test (Laboklin) detection in blood	37.00

Diagnostic laboratory

Pathogenic agent	Examined material	Used capture method	Price € incl. VAT
Chlamydomphila felis, Chlamydomphila spp.	conjunctival swab, nasal swab, genital swab	Immunochromatographic test detection of Chlamydomphila felis antigen Real Time PCR test detection in biological material	20.00 37.00
Ch. felis + M. felis + FHP + FCV	conjunctival swab, nasal swab, genital swab	PCR test (Laboklin) detection in biological material	80.00
Ch. felis + M. felis + FHP + FCV + Bordetella bronchiseptica	conjunctival swab, nasal swab, genital swab	PCR test (Laboklin) detection in biological material	91.00
blood groups of cats (A, B, AB)	blood (EDTA) umbilical blood	Immunochromatographic test Quick test from EDTA Quick test from umbilical blood	29.00 22.00
Microsporium spp., Trichophyton, Candida spp.	skin, hair, skin swabs	Cultivation test basic cultivation test selective isolation determination of sensitivity to antimycotics	10.00 12.00 10.00
Mycoplasma felis Ureaplasma spp.	conjunctival swab, nasal swab, genital swab	Real Time PCR test detection in biological material	24.00 24.00
Nt-proBNP	plasma, EDTA	Serological test (ELISA) quantitative detection of proBNP	44.00
Parasitology	feces	Parasitological test detection by flotation	8.00
Pasteurella multocida	swab of upper respiratory tract, skin, wound, abscesses, urine, uterus, brain	Bacteriological test basic bacteriological test selective isolation determination of sensitivity to ATB	7.00 10.00 10.00
Pseudomonas aeruginosa	swab of upper respiratory tract, skin, wound, abscesses, conjunctiva, ear, genitals, urine	Bacteriological test basic bacteriological test selective isolation determination of sensitivity to ATB	8.00 10.00 10.00
Salmonella spp.	rectal swab, feces, intestinal swab, organs	Bacteriological test basic bacteriological test selective isolation + serotypization determination of sensitivity to ATB	10.00 19.00 10.00
Staphylococcus intermedius, Staphylococcus aureus, Staphylococcus felis other kinds of Staphylococcus spp.	nasal swab, conjunctival swab, genital swab, mammary gland, abscesses, joints, skin, ear, organs	Bacteriological test basic bacteriological test selective isolation determination of sensitivity to ATB	7.00 10.00 10.00
Streptococcus canis other kinds of Streptococcus spp.	nasal swab, conjunctival swab, genital swab, mammary gland, abscesses, joints, ear, organs	Bacteriological test basic bacteriological test selective isolation determination of sensitivity to ATB	7.00 10.00 10.00
Toxoplasma gondii	biological material, feces serum	Real Time PCR test detection in biological material Serological test (IFAT) detection of IgG, IgM antibodies against T.gondii-titers	48.00 24.00
Tritrichomonas foetus	feces	PCR test (Laboklin) detection in biological material	37.00
Pathology and anatomical test	cat		24.00
Histology	organs		28.00
Consultancy			5.00
Announcement of results	text message, mail, fax		free of charge
Handling fee	postage and packing	according country and shipment size	1.00 – 3.00

Unless otherwise stated, the price of a test is for one sample. Price list valid from 01.04.2014.
